21. Agricultural training in 6 schools is provided for in this Comprehensive Scheme. But a separate Scheme has been called for in Agr file 1309/13. It is a point for order if the present proposal about agl training may be sanctioned temporarily i e pending the larger Scheme is elaborated and sanctioned. It will have to be remembered that the scheme will cost about 6000 Rs from next year onwards, assuming that all non recurring expenditure is incurred this year Probably some 3 or 4000 Rs will be wanted for non recurring expenditure next year also

24. Perhaps the scheme maybe sanctioned for a period of 3 or 5 years.

25 The present proposal requires an Exp[r] of nearly 5000 for five months whole as per letter of the 29 dated 9 & 14 the provision for 5000 was intended for the whole year. As the scheme is stated only to be regarded as Experimental at present, & as moreover the Suitable teachers cannot be procured at once to start all the classes suggested, it is for consideration if ~~a few only~~ fewer number of industrial classes may not be opened at present, so that 5000 Rs may be the maximum Exp[r] to be incurred on this account for 12 months instead of five

SIR

With reference to your Circular No 3 of 1914 dated 20th March 1914 calling for proposals for providing free primary education to boys in municipal towns and for providing free education to girls in municipal towns and in Government and aided schools of the State, I have the honour to submit my proposals in the enclosed statements. It will be observed that the proposals for free education are available mainly for the benefit of children belonging to the poorer classes and that the number of children to be exempted from fees is limited to one-fourth of the total number on the rolls. The cost of free education is calculated at the rate of Rs 2/- per annum for each boy and girl. The number of children to be exempted from fees is calculated according to the population in the municipal towns.

I have the honour to be
Sir
Your obedient servant

SIR

With reference to Government Order No 12049-50/Edn 372-13 dated 1st June 1914 asking me to report the details of arrangements made for working out the Scheme of Practical Instruction in Elementary Schools I have the honour to forward herewith four statements as noted in the margin indicating the lines on which action is proposed to be taken

| | |
|---|---|
| 1 | List of Industries and the Centres in which instruction is proposed to be given |
| 2 | List of Centres |
| 3 | Detailed estimate of costs for Industrial training |
| 4 | Abstract estimate of expenditure |

Forty Centres for Elementary Industrial Training and forty for Elementary Manual Instruction have been selected Whether both Industrial Training and Manual Instruction should be assigned to the same centre or different centres will depend upon local conditions and needs. The total cost will be Rs 4 574-8-0 and the same will be met out of the allotment of Rs 5 000 provided in the current year budget under 18 Education- (4) Government Schools General

In the above Scheme arrangements will be made to give similar training to girls also as far as possible The subjects to be taugh to girls include mainly the following -

1 Cookery

2 Sewing and Tailoring

3 Weaving and Dyeing

4 Paper cutting and artificial flower making

5 Knitting of socks

6 Wire-work,

7 Rattan and Bamboo work,

8 Kitchen gardening

9 Confectionery

This course will extend over two or three years according to circumstances A lumpsum is provided for special instruction to girls which will be apportioned by me from time to time

For Elementary Practical Instruction or Elementary Manual Training a contingent allowance of a rupee on an average for each school selected is provided But some schools may require more and some less The amount will be definitely fixed after some experience is gained

It is difficult to find at once for all the schools teachers qualified to teach industries Professional Maistries and Artizans will be employed temporarily; till teachers now under training in the Chamarajendra Technical Institute and the Mechanical Engineering School become available

The estimates now forwarded are only approximate and are liable to be modified I therefore propose that general sanction of Government may be accorded to the scheme now submitted, with discretion to me to introduce any alterations that the local circumstances may necessitate

I have the honour to be

Your most obedient servant

With reference to Government Order No 12049 50—Edn 372 13 dated 1st June 1914 asking me to report the details of arrangements made for working out the scheme of Practical Instruction in Elementary Schools I have the honour to forward herewith four statements as noted in the margin indicating the lines on which action is proposed to be taken

4 Abstract

Forty Centres for Elementary *Industrial* Training and forty for Elementary *Manual* Instruction have been selected Whether both Industrial Training and Manual Instruction should be assigned to the same centre or different centres will depend upon local conditions and needs The total cost will be Rs 4 574 8 0 and the same will be met out of the allotment of Rs 5 000 provided in the current year budget under 18 Education (4) Government Schools General

In the above scheme arrangements will be made to give similar training to girls also as far as possible The subjects to be taught to girls include mainly the following —

1 Cookery
2 Sewing and tailoring
3 Weaving and dyeing
4 Paper cutting and artificial flower making
5 Knitting of socks
6 Wire work
7 Rattan and bamboo work
8 Kitchen gardening
9 Confectionery

This course will extend over two or three years according to circumstances A lump sum is provided for special instruction to girls which will be apportioned by me from time to time

For Elementary Practical Instruction or Elementary Manual Training a contingent allowance of a rupee on an average for each school selected is provided But some schools may require more and some less The amount will be definitely fixed after some experience is gained

It is difficult to find at once for all the schools teachers qualified to teach industries Professional Maistries and Artizans will be employed temporarily till teachers now under training in the Chamarajendra Technical Institute and the Mechanical Engineering School become available

The estimates now forwarded are only approximate and are liable to be modified I therefore propose that General sanction of Government may be accorded to the scheme now submitted with discretion to me to introduce any alterations that the local circumstances may necessitate
